PROFILE

Cybersecurity professional and dedicated student-athlete, bringing the same discipline, resilience, and focus from competitive volleyball to the field of IT security. Currently pursuing dual degrees in Cybersecurity and Computer Science while serving as libero and captain for Reinhardt University's volleyball team, where I've earned national athletic honors. Passionate about continuous growth — from mastering endpoint security and SOC operations to training for future Ironman challenges — I approach every goal with persistence, curiosity, and a drive to excel.

EDUCATION

Reinhardt University — Waleska, GA

B.S. Cybersecurity & B.S. Computer Science, Minor in Mathematics — GPA: 3.8 | Expected May 2026

Alpha Chi National College Honor Society

Sant Josep Obrer I — Palma de Mallorca, Spain

Technical Bacallaureate

Certifications:

CompTIA Security+ (In Progress, Expected 2025)

Future: CompTIA CySA+ / Network+

PROFESSIONAL EXPERIENCE

Cybersecurity Intern — Automated Solutions Consulting (ASC Group), Woodstock, GA | Summer 2025

Developed and tested PowerShell scripts to automate Windows updates and endpoint protection, ensuring operational continuity and system integrity.

Monitored security alerts, performed vulnerability assessments, and assisted in endpoint hardening using ThreatLocker, SentinelOne, and Qualys.

Attended client meetings to align IT operations with cybersecurity policies, compliance requirements, and risk mitigation strategies.

Researched emerging threats, zero-day vulnerabilities, and industry best practices, enhancing incident response capabilities.

Documented security procedures, system configurations, and compliance checklists to improve operational efficiency and knowledge sharing.

Helpdesk Technician — Reinhardt University IT Department | 2025–Present

Administer Microsoft Admin Center tools, including Intune, Active Directory, and Entra, for endpoint management, device provisioning, and user account administration.

Organize and maintain IT inventory to track assets, ensure compliance, and support auditing processes.

Troubleshoot technical incidents across Windows, Linux, and macOS systems, including network connectivity, VPNs, and patch deployment.

Support IT security operations by monitoring endpoints, escalating incidents, and documenting procedures to strengthen operational continuity and security posture.

Collaborate with IT team to implement system updates, security patches, and endpoint protections while providing end-user support and training.

LEADERSHIP & INVOLVEMENT

President & Captain — Reinhardt Cyber Eagles

Lead Reinhardt University's competitive cybersecurity team, coordinating SOC simulations, CTF challenges, and threat analysis exercises. Mentor team members in Linux administration, digital forensics, incident response, and security operations.

Volleyball — Reinhardt University Men's Team, Captain

Lead and play as team captain, emphasizing teamwork, discipline, strategic thinking, and leadership.

Active Competitor — Hack The Box & National Cybersecurity League

Regularly perform penetration testing, vulnerability scanning, threat hunting, and security operations.

AWARDS & HONORS

Golden Eagle Award — Reinhardt's Best Male Athlete (highest athletic honor)

AVCA All-American — Recognized nationally among top volleyball players

Multiple Appalachian Athletic Conference Defender of the Year

Alpha Chi Honor Society — Academic excellence, top 10% of students

TECHNICAL SKILLS

Security Tools: Wireshark, Nmap, Qualys, ThreatLocker, SentinelOne, SIEM, EDR, vulnerability assessment

Scripting & Programming: PowerShell, Python, Bash, SQL, automation for system updates

Operating Systems: Windows, Linux (Mint/Kali), macOS

Networking & Protocols: TCP/IP, DNS, DHCP, VPNs, Firewalls, network troubleshooting, secure network architecture

Other: Microsoft Admin Center (Intune, Active Directory, Entra), IT inventory management, Git, Virtualization (VMware/VirtualBox), patch management, endpoint security, compliance, risk analysis
